## Education

### University of California, Berkeley

Data Science, B.A  
Certificate of Design Innovation

## Skills

Figma, Adobe Creative Suite, Tableau,  
HTML/CSS, Javascript, Tableau, Data  
Visualization, Java, Python

Human centered design  
Design direction and execution  
Digital and physical fabrication  
Critical making, practices

## Experience

### Dala Wellness - Design Lead

09/2019 - Current

Leading the design for digital healthspaces for autoimmune patients.  
Creating interactive tools to facilitate mindfulness and pain management  
in a mobile application.

### Berkeley Innovation - Education Director

01/2018 - 5/2019

Created and delivered design education, covering various topics  
including visual principles, design thinking, and prototyping to 28 design  
students. Previously consulted on two UI/UX projects and mentored  
one.

### Ubiquity Press - Design Intern

05/2019 - 09/2019

Designed and shipped an academic repository to empower research  
publication and searchflow. Currently adopted by the British Library.

### The Design Exchange - Design Researcher

01/2019 - 05/2019

Conducted qualitative user research, seeking to understand how designers  
frame their decisions and the problem space.

### PredictEV - UI/UX Designer

10/2018 - 02/2019

Designed the visual interface and user experience of a mobile sports  
prediction platform. Created design guidelines and principles for mobile and  
web product.

## Projects

### Fortify

Fabricated a satirical installation to draw awareness to the ongoing issue of  
school shootings.

### BART Data Visualization

Visualized open-source BART data to inform locals on BART's performance.

### MyTiller

Designed a virtual ballot interface to empower and educate voters.

### SkyAlert

Designed interactive onboarding experience to increase technical  
earthquake education.
